## READING
Read nightly for pleasure, choose a book that is ‘just right’ and is interesting to you.
- When reading a book, discuss the main ideas with an adult. Use your ‘schema’ to help you relate to characters, setting and plot. Use visualisation to help bring your book to life. Provide opinions as to why events have occurred/will occur.
- Predict any new vocabulary you might find in the book. Look for relationships to other words, e.g. synonyms, word building plurals.
- Please try and read with and remember to sign the reader journal and write done how many nights you have been reading.

Log onto the Mathletics website, using your username and password to complete activities related to the topic of the week. Aim for 1000 points a week every week!

- Teach someone in your family something you have learnt this week in Maths.
- Have fun playing maths games like finger maths and snap ten.
- Have fun measuring and cooking, using real money to go shopping.
- Plan what you need to do during the week and write down the time, let your parents know, this will help you learn to tell the time.
- Read the numbers on car plates discuss place value and how much they add up to.
- Practice adding and subtracting.

## Australian Animals
Compulsory task!
Research and record information about an Australian animal. Use the attached sheet to gather your information. You will be asked to present your information to the class.

**DATE DUE:** Friday 1st November 2013

## SPELLING
Using your spelling list words, choose one activity to help you learn them. The spelling test will be held on a Monday. Please remember to bring your spelling book to school every Friday.

Remember to practice them daily. Keep a record of the task you have done.
