RATIONALE

The safety and wellbeing of all children attending Outside School Hours Care is of utmost importance.

AIM

To minimise safety risks to children who decide to leave the program unaccompanied by an authorised adult, the following procedure needs to be adhered to by program staff.

IMPLEMENTATION

These procedures apply to program staff and parents.

- If possible in terms of location and child/staff ratios, keep sight of the child and ask him/her to return to the group. Advise them if they don't comply their parents will be called to collect them.
- If the child isn't within sight and there is someone in the school office, ask them to announce over the loud speaker that the child must immediately report to the program.
- If the staff member is unable to locate the child, the supervisor will then be required to contact the parent/guardian and then emergency contacts if necessary.
- If no contact is made with the parent/guardian or emergency contacts, call the police.
- Contact the School Principal to inform them of the incident. If the Principal is not available, contact the Assistant Principal:
